-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 13 is rejected under 35 U.S.C. 102(b) as being anticipated by Chan 5,116,273.

Regarding claim 13, Chan '273 discloses a method of manufacturing a sunblind for a window of a vehicle, the method comprising the following steps forming a rigid frame (14) having a closed-loop configuration; forming a panel (10) of flexible material (W1) which has a desired degree of opacity to the sunlight; temporarily affixing the panel of flexible material, while in a tensioned state to the rigid frame; securing the panel to the rigid frame such that the panel extends over the interior of the rigid frame; and providing at least one fixing component (28) for fixing the rigid frame to an interior surface of the vehicle such that the panel occludes at least part of the window to sunlight in Figure 6, wherein the rigid frame and/or the panel of flexible material are formed using machines operating under Computer-Numerical-Control (CNC) in Figure 1. Even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product (rigid frame and the panel of flexible material) does not depend on its method of production (CNC).

***Allowable Subject Matter***

3. Claims 1-8, 10, 17, 19 and 20 are allowed.
4. Claim 16 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

5. Applicant's arguments filed July 20, 2007 have been fully considered but they are not persuasive.

Regarding claim 13, Even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product (rigid frame and the panel of flexible material) does not depend on its method of production (CNC).

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3612

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
